FINANCIAL INFORMATION

Welcome to our office! In order to assure that you understand all of the charges pertaining to your prenatal care and delivery, our office has prepared the following information. If you have any further questions, please ask one of us. This information serves as an estimate for your planning purposes. Please understand that these charges are subject to change as overall changes occur in the health care industry.

FIRST OB VISIT:	$500.00	
Includes:	Complete history, physical exam, consultation with provider and educational material	

Ultrasound at first OB Appointment: $485.00

Each visit after the initial screening will be $165.00. The number of visits depends on when the patient enters our system. A low risk patient, for example, could expect a total of 11 – 13 visits to our office if we first see her when she is 8-10 weeks.

Typically an ultrasound is ordered outside of the office around the middle of the pregnancy. The cost of this ultrasound is approximately $480.00.

DELIVERY FEE

Vaginal delivery:	$4300.00
Cesarean Section:	$5100.00
VBAC (vaginal delivery after c/s)	$5200.00

Your portion of the delivery fee is expected to be paid by the seventh month (28-32 weeks) of your pregnancy. A **six-week** post partum visit is included in the delivery charge. If you schedule your follow-up six week check after eight weeks, you will be charged for the exam.

Please note that our office will bill your insurance as a courtesy to you, but we ask that if your deductible is met, you pay your co-payment for each visit
